

300-POI

Term Tech Long Palm Copper Tube Terminal 300mm² Cable Blank Palm

The Termination Technology range long palm terminals have a blank palm that enable users with specific requirements to customise the stud sizes and positions. Kept in stock with a blank palm but can be custom punched with one or two hole configurations as required. A bell mouth entry ensures a smooth transition from lug to cable, thus avoiding the problems of chafing where the component is subject to vibration.
