

ARB17/GALV

**Term Tech All Round Fixing Band 17mm x 10m
with 7mm Fixing Holes Bare Galv Steel**

The Termination Technology range of All round fixing band is a versatile product range used to manage and tidy cable installations, secure conduits and pipes with many more superficial uses across the construction industry. Available with LSF Powder coating in various colours to help colour code installations or as a bare galv steel or copper option to provide increased corrosion protection. Supplied on a 10m length in a durable dispensable case ready to reel off and use.
