

BIMET150M12

Term Tech Bi-Metallic Tube Terminal Aluminium Barrel Copper Palm 150mm² Cable 12mm Hole

The Termination Technology range of Bi-Metal lugs are suitable for terminating cables with aluminium conductors onto copper busbars without the risk of electrolytic corrosion and ensuring longevity. Supplied with a greased internal barrel and capped to prevent leakage. We would recommend using an indent crimper as aluminium is a softer metal than copper and the wall thickness of the lug is thicker to compensate.
