

## CAT1.5-150M

**Term Tech Steel Catenary Wire 1.5mmØ (150m Reel)**

The Termination Technology range of catenary wire and grips are suitable for hanging lighting in high areas with a lower installation time compared to other methods. Self sustaining design with grips that use the weight of the installation to lock the retaining pin on the gripping wheel and hold securely in place. Available in a range of diameters and as a ready to use pack.

## Technical Data

### Colour and Material
