

CC38

Term Tech Heavy Duty Cable Cutting Tool 38mm² Max Core Size Hand Operated

The Termination Technology range of heavy duty non-ratchet cutting tools are used to cut single core cables in a variety of different sizes. Hand operated with long and robust handles for optimal leverage and ease of use. Not suitable for armoured cables as this will quickly cause the cutting blades to blunt.

Technical Data

Application Type, Size and Range

Maximum Cable Size (mm ²)	38
Suitable Cable Type	Non Armoured Cores

Dimensions

Handle Length (mm)	130
Product Length (mm)	210

Tooling Information

Cutter Operation	Hand Operated
