

CCC2

Term Tech Heavy Duty Cable Cutting Tool 120mm² Max Core Size Long Handled Hand Operated

The Termination Technology range of heavy duty non-ratchet cutting tools are used to cut single core cables in a variety of different sizes. Hand operated with long and robust handles for optimal leverage and ease of use. Not suitable for armoured cables as this will quickly cause the cutting blades to blunt.

Technical Data

Application Type, Size and Range

Maximum Cable Size (mm ²)	120
Suitable Cable Type	Non Armoured Cores

Dimensions

Product Length (mm)	360
