

CS-EC58

Term Tech Brass Earth Rod to Cable Clamp Rugby Ball Style 5/8" Rod

The Termination Technology CS-EC range of earth clamps are used to connect single core cables to an earth rod. Rugby ball style shape with a bolt intersecting, the cable and rod are inserted into the groove of the clamp and the bolt is tightened to crush the two together. This makes the connection and holds it in place. Other styles such as our EC keyhole style are also available.
