

CS15A

Term Tech Connector Strip 12 Way Polythene
15A (Unit 100)

The Termination Technology range of 12 way screw down style connector strips are made using fresh P.E material with strong insulation performance. The conductor is made from high quality brass and has excellent electrical conductivity. Suitable for a range of applications including electrical and mechanical, electrical control, power supply appliances, decoration and other electrical wiring parts.

Technical Data

Colour and Material

Material	Brass
Insulation Material	Polythene

Dimensions

Dimension H (mm)	17
Dimension L (mm)	124
Dimension M (mm)	21

Electrical Ratings

Max Current (A)	15
Voltage Rating (V)	380

Physical Attributes

Style	12 Way Strip
-------	--------------

Product Specification

UKCA Approved	Yes
