

## EARTHBOX

### Term Tech Earth Electrode Box 20mmØ Conduit Maximum Black

The Termination Technology earth electrode box is a perfect solution for protecting the connection of a cable to an earth rod. With a screw on lid and warning label on the top to prevent unwarranted access or removal, the connection is protected when buried and allows conduit to run directly to the point of protection for no break in protection.

## Technical Data

### Colour and Material

Material	UPVC
Colour	Black

### Application Type, Size and Range

Maximum Conduit Ø (mm)	20
Number of Fixings	2

### Dimensions

Product Ø (mm)	65
----------------	----

### Durability

Impact Resistance	High
-------------------	------

### Physical Attributes

Style	Electrode box
-------	---------------

### Product Text

Printed Text	SAFETY ELECTRICAL CONNECTION DO NOT REMOVE
Text Colour	Red
