

EC100/57

Term Tech Adhesive Lined Heatshrink End Cap 100mmØ Black

The Termination Technology range of Heatshrink end caps are manufactured from crosslinked polyolefin and internally coated with a hot melt adhesive to provide a watertight seal. Widely used to prevent contamination and moisture ingress of power cables during transportation and installation. Also offering excellent resistance to abrasion.

Technical Data

Colour and Material

Material	Crosslinked Polyolefin
Colour	Black

Electrical Ratings

Dielectric Strength (kV/mm)	12 Tested to IEC-273
Volume Resistivity (Ohm/cm)	10 ¹³

Physical Attributes

Adhesive Lined	Yes
