GEL160

Term Tech Re-enterable Gel Pack 160ml

The Termination Technology range of Re-enterable gel is a bi-component rubber system insulating resin, designed for telecommunications and low voltage applications. Supplied as a two part pack with resin and hardener, breaking the seal will mix the two together and begin the setting reaction. Available in a range of pack sizes from 160ml up to 1650ml.

Technical Data

Colour and Material

Colour	Blue (Once mixed)

Application Type, Size and Range

Suitability	Designed for joints and low voltage applications

Electrical Ratings

Dielectric Strength (kV/mm)	>8

Physical Attributes

Style	Two component gel, resin with hardener
Perishability	Use by date on the packaging
Re-enterable	Yes

Quantities and Packaging

Packaging	Heavy duty pouch with a divider separating the components
Quantity (ml)	160
