

## GMF30T

### Term Tech Round Slotted Trunking Polypropylene Grey 30mmØ (500mm Length)

The Termination Technology range of GMF Round Slotted Trunking is a flexible cable routing system designed for use in control panels, distribution boards in difficult to reach areas. Can be fixed either by screws or the self adhesive strip on the back. For longer runs two or more lengths can be joined by snapping the ends together. Available in three different diameters.

## Technical Data

### Colour and Material

|          |               |
|----------|---------------|
| Material | Polypropylene |
| Colour   | Grey          |

### Dimensions

|                     |     |
|---------------------|-----|
| Product Length (mm) | 500 |
| Product Ø (mm)      | 30  |

### Physical Attributes

|               |                             |
|---------------|-----------------------------|
| Self Adhesive | Yes with a pull off backing |
| Joinable      | Yes                         |

### Temperature and Fire Information

|                                       |            |
|---------------------------------------|------------|
| Continuous Operating Temperature (°C) | -30 to +90 |
| Flammability Testing                  | UL94 V2    |
