

## HCU-70

### Term Tech Hot Connection Indicators Consumer Unit Pack 1mm<sup>2</sup>-35mm<sup>2</sup> Purple (Pack of 32)

The Termination Technology push-on hot connection indicators are designed to be push fitted onto the outer insulation of a cable, next to its connection terminal. The indicator will indicate by colour change if the connection terminal and cable become heated above a set temperature. Indicators change colour from purple to pink at 55°C and will stay permanent pink if the temperature reaches 70°C. Not suitable for unprotected use outdoors, in direct sunlight or in sub-zero temperatures. Vulnerable to attack from prolonged exposure to ultra-violet (UV) light.

## Technical Data

### Colour and Material

Material	Polypropylene with Thermochromatich Masterbatch Additive
Colour	Purple as standard, Pink when above 55°C

### Application Type, Size and Range

Environmental Application	Indoor use only, vulnerable to UV light
Product Breakdown	12x HCU-1, 12x HCU-2 and 8x HCU-3
Suitability	For consumer unit application

### Physical Attributes

Style	Consumer unit pack
