

## HJK2

### Term Tech Heatshrink Joint Kit 300mm Length 6mm<sup>2</sup> 4C

The Termination technology range of Heatshrink Joint kits are an alternative method of joining cables utilizing adhesive lined Heatshrink to provide an IP68 seal. An ideal solution where protection against ingress is more important than mechanical protection. Thin wall adhesive lined Heatshrink to cover each core and medium walled adhesive lined Heatshrink to cover the overall join, supplied with crimp connectors to make the core connections. Available in larger sizes and can be made to order for larger armoured cables or with mechanical connectors for copper to aluminium joins.

## Technical Data

### Colour and Material

Colour	Black
--------	-------

### Application Type, Size and Range
