

INSULATOR

Term Tech Stand-off Barrel Insulator M10 Threads Red

The Termination Technology range of stand-off Insulators are designed to create an off surface mount for electrical components without the risk of a through current. Utilised in house when manufacturing our earth bars, they provide a support for the bar away from the mounting channel. Available with a range of thread sizes.

Technical Data

Colour and Material

Material	Copper
Insulation Material	Bulk Moulding Compound (BMC)

Dimensions

Product Height (mm)	40
Product Ø (mm)	40
Thread Size	10

Electrical Ratings

Voltage Rating (kV)	12
---------------------	----

Physical Attributes

Tensile Strength (N)	2890
----------------------	------
