K65-MARKERKIT

Term Tech Complete K65 Route Cable Marker Kit Black on Yellow 100 of each Mark

The Termination Technology K65 route marker kit is an amalgamation of all of our route markers and accessories to offer a complete kit suitable for any application. Route markers are applied to a plastic carrier strip which is then cable tied onto the cable, holding the markers in place on the carrier. Perfect for marking terminated cables. The markers are supplied in a highly visible yellow colour ideal for marking and identifying large cables, bundles, conduit or pipes. For sizing you are only limited by the length of the cable tie you are using.
