

PNB25

Term Tech Brass Earthing Nut M25 (Pack of 10)

The Termination Technology range of brass earthing nuts revolutionise the installation of metal glands and enable a fast, easy and direct connection for protective earthing conductors. An earthing nut eliminates the possibility of loss of earth connection, especially where cables are terminated into a non metallic enclosure. Earthing nuts also provide a simple connection for both EMI/RF screening and protective earthing. Available in a range of M20, M25 and M32 sizes.
