

S400SPRING

Term Tech Constant Force Spring 400mm² Max

The Termination Technology range of constant force springs are designed to wrap around and exert a constant pressure for a range of electrical applications. Also utilised in our resin joint kits to connect the earth strap to the cable armouring ensuring earth continuity within the joint. Available in a range of sizes from 10mm² up to 400mm².

Technical Data

Colour and Material

Material	304 Grade Stainless Steel
----------	---------------------------

Dimensions

Product Length (mm)	710
Product Thickness (mm)	0.457
Product Width (mm)	20

Physical Attributes

Tensile Strength (N/mm ²)	1929
---------------------------------------	------
