

T300-12-NARROW

Term Tech Narrow Palm Copper Tube Terminal 300mm² Cable 12mm Hole 31mm Palm Width

The Termination Technology range of narrow palm copper tube terminals is manufactured from seamless copper tube to BS2871/C106. Designed for use where space is tight or in busy areas and a standard lug is too big for the application. All terminals are provided with an inspection hole to ensure the conductor is fully inserted before crimping. A bell mouth also ensures a smooth transition from lug to cable, thus avoiding the problems of chafing where the component is subject to vibration. Other specialist terminal ranges are also available from stock.

Technical Data

Colour and Material

Material	Copper
Plating Material	Tin

Application Type, Size and Range

Cable Size (mm ²)	300
Number of Cables Accepted	1
Suitable Cable Type	Copper Cores

Dimensions

Fixing Hole (mm)	12
Palm Width (mm)	31

Physical Attributes

Style	Narrow Palm Terminal
